**[Twickenham, Greater London, 01/08/2018]** – On the 7<sup>th</sup> July 2018 Stella's Café and Restaurant was opened following 4 weeks of extensive renovations. The Stella's Takeaway Fish and Chips and Portuguese Grill is now a thing of the past.

The large fish fryers have been removed completely and the premises will no longer be serving fish and chips at all. The Kitchen which was before on show behind the fish and chip counters has now been moved out to the back which has enabled the entire shop front to be opened up to the public. Not only is there now enough space for up to 50 people to be seated (before there was space for precisely 0!) but the premises has also had a bar built to the left of the property with a full alcohol license being granted by the council.

In terms of the service changes at Stella's, there will no longer be a takeaway service for fish and chips and the piri piri grill has been shortened drastically leaving only whole chicken and a few other dishes available for takeaway. A brand new restaurant menu has been released including popular dishes in the Portuguese region such as mussels, king prawns, octopus and Bacalhao. As well as this an all new Portugal inspired drinks menu with a range of Portuguese wines and beers is now also available. A television showing Portuguese channels is also available and Portuguese football is shown whenever on. Portuguese coffee is also now available to drink in or to takeaway as well as full English breakfasts in the mornings.

The full conversion from the Fish and Chips takeaway to the Portuguese Café and Restaurant was completed on the 7<sup>th</sup> July and opened to the public on this day.
